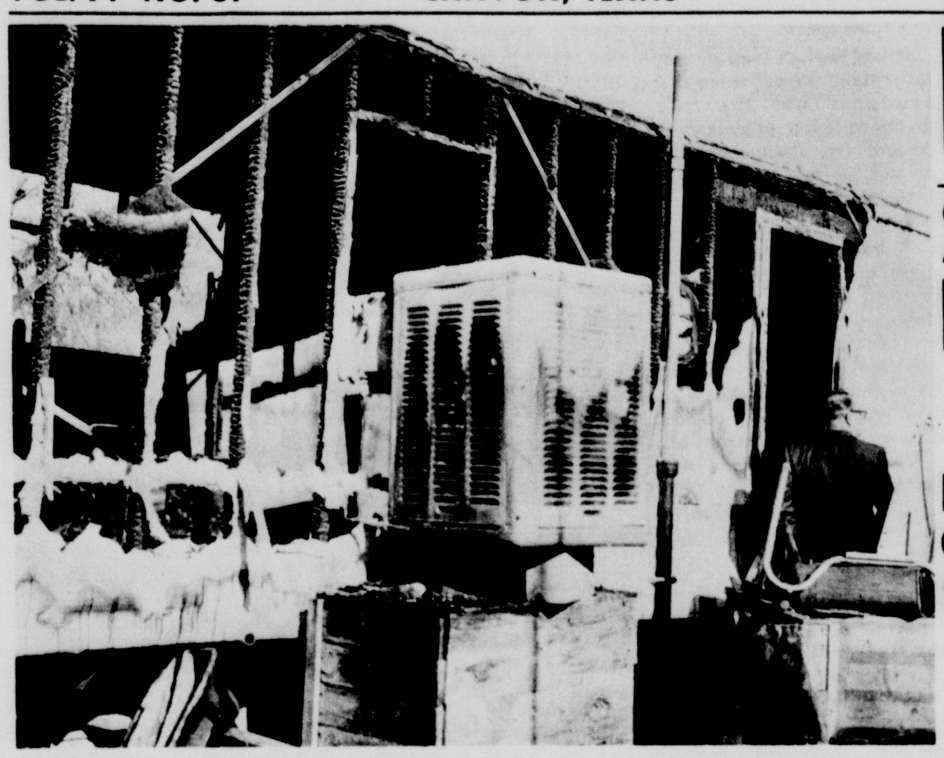
Pass Regent Bill



Thomas "Tommy" Thrasher lost his life Tuesday night as this house trailer where he was staying at 1700 Second Avenue went up in flames. Fire Marshal Jack Jennings said he believes the fire was started by the kitchen stove.

House Trailer Gutted

Fire Kills Man

Fire gutted a large trailer house at 1700 Second Avenue Tuesday night and killed its lone occupant while members of his family tried frantically to rescue him.

Dead is Thomas "Tommy" Thrasher, 33, a longtime resident of Canyon.

Justice of the Peace W. A. "Bill" Wilson said Thrasher died of suffocation as roaring flames devoured the oxygen in the burning trailer house.

The trailer house is located on the same lot with the home of the T. W. Thrashers, parents of the dead man.

Firemen were notified at 10:58 by the elder Thrasher who awoke minutes earlier to find his bedroom tinted by light from the fire.

He and a teenage son, Jackie, who had just returned home from a basketball game at Canyon High School, rushed into the yard.

Flames were pouring from the trailer house. They tried to get into the front door and then into a rear side door but were driven back by heat and smoke.

Jackie finally knocked out a window with a shovel.

By that time the trailer house was caving in.

"I ran to the front door and then to a side door but I couldn't get in," Jackie related. "It was hopeless. It was so hot."

The body was found in a bedroom sitting up against a dresser. The body was not badly burned and it was surmised that Thrasher died of suffocation.

Neighbors reported an explosion some time during the fire. No one was certain as to what might have exploded.

Firemen controlled the blaze within minutes after arrival.

"Apparently the fire was started at the kitchen stove," said Fire Marshal Jack Jennings. "The burners were close to the wall."

Avery Thrasher, another brother of the fire victim, said he had been staying in the trailer house until about three nights ago. He said the kitchen stove had been used for heating because the furnace had been giving trouble.

The trailer house belonged to Mrs. Emma Manning, a sister of the dead man. Mrs. Manning was in Guymon, Okla., visiting relatives at the time of the tragedy.

Damage was estimated at about $7,000. Relatives said fire insurance on the trailer house had lapsed a few days ago.

Thrasher had lived in Canyon since 1958 having moved here from Dundee, Miss. He was born May 1, 1935 at Houston, Miss.

He had been employed at various farm work and was a member of the Baptist Church.

Funeral rites will be at 2 p.m. Friday at LaGrone Funeral Chapel in Canyon with Rev. Strauss Atkinson, pastor of the First Baptist Church, officiating. Interment will be at Dreamland Cemetery, under the direction of LaGrone Funeral Home.

Survivors include the parents, Mr. and Mrs. T. W. Thrasher of Canyon; five brothers, N. C., Neal, Avery and Jackie Thrasher, all of the home, and Charles Thrasher of Amarillo; two sisters, Mrs. Emma Manning of Amarillo and Mrs. Daisy Griffin of El Paso, and a grandmother, Mrs. Bessie Thrasher of Starksville, Miss.

Summer School Now In Doubt

Supt. Jerry Jacobs told school board members Tuesday night it is doubtful a summer school session will be instituted this summer.

Jacobs said a recent survey indicated "not enough interest."

Hobart McDonald, director of secondary education, told board members about 65 per cent of the students he had surveyed said they worked during the summer.

"We were real disappointed in it (the survey)," Jacobs said.

He said, however, the school administration might look into a few of the areas in which students showed the most interest and see if some school arrangement could be worked out.

Clayton Shiver of Shiver & Megert of Amarillo, architect firm which is designing the remodeling of Rex Reeves School and the proposed junior high school, said it will probably be 2 1/2 months before the plans for the junior high are ready for presentation to the board.

He said the project was taking more time than usual because of the innovative

Back To Class For Champions

Coach Bob Schneider's Girl Eagles have no doubt calmed down and resumed regular classes this week after bringing home the state championship Saturday night in basketball action in Austin.

It was the first such state title for the girls, but it will probably not be the last.

Although Schneider will lose his top two scorers, Pam Richardson and Susan Swatzell to graduation this year, he has an experienced bench to rely on for next year.

Miss Richardson, who averages 28 points per game, hit 26 Saturday night to accelerate the Eagles past Angelton's Wildcats.

Miss Swatzell did her part, too. She has averaged 19 points per game.

Schneider will still have starting forward Jan Sterneenberg, 5-5 junior, who has averaged 10 points per game when he begins anew next year.

He will lose only one guard to graduation, but the loss will definitely hurt. Beverly Brown, 5-6, contributed greatly to Canyon's win in the finals.

Cheryl Davis and Jenna Thompson, the two other starting guards, are juniors this year.

Linda Lehman, who came off the bench to lead Canyon to victory Friday night against Tuloso-Midway, will no doubt find her game time experience this year invaluable next season. She has averaged six points per game

Girls Present State Trophy

BY TROY MARTIN

Canyon's Girl Eagles savored the sweet aftermath of victory Monday as they watched their team captains present the coveted state championship trophy--a silver basketball--to Canyon High School.

The presentation was made by Captains Susan Swatzell, Pam Richardson and Beverly Brown after Coach Bob Schneider declined in their favor.

Accepting the trophy for the school was Superintendent Jerry Jacobs.

The assembled student body sang "We're number one!" and brought down the rafters of Canyon High School Auditorium with two standing ovations for their Eagles.

Principal John Sommer read a letter addressed to members of the team commending them for their achievement.

"It is an honor to accept this trophy," declared Superintendent Jacobs as television cameras whirred.

"We're number one!" rose the chant again from the student body.

With tongue in cheek, Susan Booth, president of the student body, thanked area news media. Actually, the girl Eagles had burst as unexpectedly as a Plains cactus blossom on Amarillo sports writers and sportscasters.

The Canyon Sunday News was left a clear field a week ago Sunday to report all alone that the Girl Eagles had stung the Stephenville Honeybees, defending state champions,

Thanks For Telegrams

Canyon's Eagle basketball team received more than 50 telegrams from well wishers while at the state meet in Austin.

"We want to take this opportunity to thank everyone for their kindness in remembering us," said Coach Bob Schneider this week.

Commission Approves '69 Budget

City Manager Paul Davis reported to City Commissioners last Thursday that the city's finances are "in good shape."

The commission voted to approve the 1969 budget of $643,344.

The amount is about 10 per cent greater than last year's appropriations.

No tax hike and no increase in employes are required by the budget, Davis said.

He said anticipated revenue for the fiscal year should be $650,364.

School Choirs Concert Friday

Winter choir concert combining the Canyon High School boys and girls choir will be held Friday at 8 p.m. in the auditorium of the high school.

Sponsored by the CHS choirs, the program will feature all musical choir numbers to be used in the regional University Interscholastic League choir contests March 24-25 at the Civic Center Auditorium in Amarillo.

Concert admission will be 50 cents for students and $1 for adults with proceeds to be used in helping finance the high school choir trip to Corpus Christi in May.

Gene Murray directs the CJHS choirs and Miss Linda Adams is director of the CHS choir.

The 7th, 8th and 9th girls choir will sing "Agnus Dei" by Davis, "Regina Coeli" by Archinger, and "Vere Langueras" by Lotti. The boys 7th, 8th and 9th grade choir will sing "Veni Jesu" by Cheubini, "Regina Coeli" by Archinger, and "Holy, Holy, Holy" by Schubert.

High school numbers will include "Sound the Trumpet" by Purcell, "Thy Lovely Saints" by Bright, "Il le bel ie ben" by Peausseau from the girl's choir; "Brothers, Sing On by Grieg, "Red, Red Rose" by Schumann, "Bonnie Eloise" by Hunter-Shaw from the boy's choir; and "Ola, Oche Bon Echo" by di Lasso, "Holy Radiant Light" by Gretcharinoff, and "Laughing Song" by George from the CHS Mixed Choir.

Two WTSU students, Tom Boutell, and Mrs. Jackie Nielson, were presented $100

Smith Expected To Sign Measure

Governor Preston Smith is expected to sign a measure this week--possibly this morning--creating a separate board of regents for West Texas State University.

The bill creating such a board, Senate Bill 93, was passed by the Texas House of Representatives shortly before noon Wednesday by a recorded vote of 133 to 5. The measure already had been approved by the Senate.

Having been passed by a recorded vote, the bill can go into effect as soon as it has been signed by the governor.

In a conversation with Representative Ralph Wayne about 2:45 o'clock Wednesday afternoon Governor Smith was reported to have said he would be willing to sign the bill immediately.

"He said he would sign it at 9 o'clock Thursday morning if I could get it ready by then," Wayne told The Canyon News a few minutes after he had talked to the governor.

Wayne said he expects the governor's name to be affixed on the piece of legislation either today or Friday.

The bill was carried in the Senate by Senator Grady Hazlewood. It was jointly sponsored in the House by the Panhandle Plains delegation but it was Wayne who actually cleared the way for it in the House.

"I want to compliment Hudson Moyer, Walter Knapp and Tom Christian in the House and Senator Hazlewood in the Senate," said Wayne. "Without their work it would not have been possible."

Wayne said it is possible for the board of regents to be appointed immediately by Governor Smith but said he feels it may take several weeks.

He said the new board can take over operation of the university from the present senior college board as soon as appointments have been completed.

Representative Wayne was jubilant over passage of the bill.

"I am entirely pleased," said the legislator.

"With a separate board devoting its energy to the university, West Texas State will break loose and grow more than ever before."

Hank Brown, director of the WTSU ex-students association, was also pleased.

"It is the best news the university has had in many years," Brown declared shortly after noon Wednesday. "It is the culmination of many years of effort by many friends and supporters of the university."

Brown praised Senator

Candidates Must File Statement

Statements of money spent, borrowed or loaned will be filed for the first time this year by the four candidates for positions on the City Commission.

The candidates were informed of the requirement last Thursday by City Attorney Elton Cox, who said the statements had been required by state law for several years.

Each candidate must list all gifts, loans and debts incurred not only while running for office, but debts individually incurred, before the announced candidacy.

The statements must be filed not less than seven nor more than 10 days prior to the election and not more than 10 days following the election.

Japanese Educator Pays Visit

Susumu Tokuda, past president of Takasaki College of Economics in Japan, will be in Canyon today through Sunday for the purpose of joining his school and West Texas State University in a "sister-university" relationship.

While in Canyon, Tokuda will visit Rex Reeves Elementary School where he will raise Oriental carp streamers in a ceremony this morning. The streamers, which are pillowcase-type tubes, brightly decorated and cut and designed to resemble fish will fly on the school's flagpole. Topped by a windwheel, the streamers flying are significant of the strength of boys and are flown nationally in Japan on Boy's Day.

Tokuda will address the students through an interpreter, Dr. John Shepherd of Baylor University in Waco. Dr. Shepherd is an instructor of American History and History of the Far East.

At 9:30 this morning, Thursday, Tokuda will meet with the administrative council at West Texas State University. He will be honored with a luncheon at noon in the Gold Room of the east cafeteria at WTSU.

Friday, he will speak to the Canyon Kiwanis Club's noon

FROM THE CANYON RIM

A West Texas State University professor who has reason to know a lot about communism tells a story which goes a long way toward illustrating the error of new left students who are constantly beating the drums for communist run countries.

Some of these misguided students have visited Cuba and other communist countries and have returned as unpaid propagandists for them.

We had such a young man on the WTSU campus last spring. He had made an expense-paid trip to Cuba and came back praising that country as a socialistic land of milk and honey.

Here is the professor's illustration.

A man of questionable morals dreamed that he had died and gone to Hell.

He had always suspicioned that his parson had used Joe McCarthy scare tactics to get him to mend his ways and that Hell was not the horrible place he had heard described.

His suspicions were confirmed.

No sooner had he landed in Hell than he was met at the landing pad by no less personage than the Devil himself. Before they so much as departed the port of entry he had downed a couple of Cutty Sarks with the old master just to get into the spirit of things.

Then he was whisked away to the Purgatory Hilton in a glittering limousine.

Bunny girls were bellhops and they served him a sirloin steak an inch and a half thick right in his room.

Tickets to some hit shows he had missed on Earth were waiting on his dresser.

Everywhere he went he was treated royally. Everywhere there was evidence of abundance. He was assured a thousand times by the Devil's propaganda minister that there was absolutely no one in Hell not hilariously happy.

In the middle of all this merriment, the dreamer awoke.

Then he REALLY died and then he REALLY went to hell.

Again he was greeted at the port of entry but not by the Devil. This time he was met by a host of imps who lost no time in outfitting him with a huge ball which was attached by means of a steel chain to his right ankle.

He was conveyed swiftly to the nearest furnace room and there amid stifling sulphur and brimstone fumes he was told he would stoke the fires of Hell for eternity.

Years later the Devil came by on an inspection tour and the furnace tender managed to get his attention.

"I wasn't treated this way when I was here before," he complained bitterly.

"Ah, that's true," the Devil replied in an oily voice, "but then you were a TOURIST."

Our World

BY ANN BROWN

Canyon and West Texas State can be justifiably proud of their athletes. It takes hard work, dedication, and talent on the part of players and coaches to produce winning teams. Is this not also true in other areas of school work?

It always produces pain and criticism when the responsible authorities dismiss a coach who can't build a team that can win at least half the time. But why should a coach wait to be dismissed? When he has had ample opportunity, and can't produce at least an average team, why doesn't he try some other work?

A farmer who can't farm has to quit. A truck driver who can't drive gets fired. A banker who can't handle money goes broke. A merchant who can't sell goes out of business. Why should teachers be excepted? But why single out coaches?

When normal students with average intelligence graduate from high school, and can't read, can't add, can't spell, and can't tell the difference between to and too, what's the problem? When two teachers teach the same subject, and the majority in one class fails, while the majority in the other class does acceptable work, what's the problem?

Where there is no learning, there is probably not much teaching either. Teaching is the art of communication. It matters little how brilliant a teacher may be or how great his store of knowledge, if he cannot communicate that knowledge to others, or inspire them to search it out for themselves, he cannot teach.

It has been proven in many laboratory experiments that students who like their teachers learn; students who do not like their teachers, do not learn. And it varies little from kindergarten through college.

A teacher who inspires confidence and admiration in his students can teach them almost anything. A teacher who antagonizes his students is not likely to teach them much, regardless of how much he knows, or how efficient his methods may be.

The authorities who will not keep a coach in the system who can't coach, are to be commended. But what about other teachers who can't teach?

Is it not as important that students learn reading, writing, and arithmetic as it is that they learn to play ball?

Not every teacher can be a genius, nor does he need to be. Teachers do not teach books; they teach children. If a teacher does not love the particular age group he works with, and enjoy teaching them, he should seek other work.

Teaching is the most influential profession in the world. Not every child goes to church, but almost every child goes to school. A child's life may be warped or ruined by careless, neurotic teachers. According to one national survey, 13% of public school teahcers were so neurotic as to be classified as mentally ill.

In one of our large school systems in Texas, a teacher has been teaching the 4th grade for more than 35 years. When the students who were in her room grew up and had children of their own in the 4th grade, they absolutely refused to allow their children to be placed in her room. There were enough of her former students in the area that for two years the teacher remained on the payroll (she had tenure, of course), but had no class to teach.

Athletics are important, and efforts to perfect and protect them are commendable. But are they more important than intellects and emotions? What is the primary purpose of our schools anyway?

Tanglewood News

BY GAY HENDRIX

Tully and Jeri Currie have started building their new home next to Tim Joe's. All of the Curries seem to be in on the project. John Currie leveled the site and dredged the lower part of the lot to form an island, and Genevieve worked with the kids on house plans. Charlie Walker, with much Currie-clan assistance, is putting the house up in record time, and the young Curries plan to move in late in April.

This two-bedroom, two-bath home will have about 2,000 square feet of living space and is specially planned for easy expansion in the future. Tully and Jeri are presently living in Canyon near WTSU where they are both in school. John and Genevieve took a few days off from house building this weekend to drive Ginger and four girlfriends to Austin to see the Canyon basketball team win the AAA state championship.

Peggy Acord, daughter of the Roy Duprees, is an avid bird watcher and has spent some enjoyable mornings at the lake with members of the Texas Panhandle Audubon Society observing some of the 100 or more different species of birds here at the Club. The "birdings" start with coffee at the Duprees, and the group hikes several miles around the lake area observing the birds "in season". This winter the birds, particularly ducks, haven't been as numerous as usual, and no wild swan have been sighted. Peggy urges members to keep their eyes open for bald eagles and golden eagles, both of which are exciting to see, and the spring warblers and orioles which will be back for the summer any time now.

John Anderson, an old friend of Peggy Acords, frequently goes along to hunt for arrowheads while Peggy "birds." John is home again from Connecticut and back at work for the Club, mainly on the golf course, but as usual, helping out with anything that needs doing. Lou Anderson is in Connecticut, but will move down to Lake Tanglewood permanently in July.

Murray Grey and his men have moved in about fifteen big pieces of earth moving equipment to revamp the channels and lots on the old golf course. The channels will be enlarged and the 52 new waterfront lots will be terraced to slope gently to the water with boat slips cut into each of them. A concrete drainage system will prevent washing, and the roads will be paved for easy access. Lots range in price from $3,000 for an off-shore lot to $7,500 for a waterfront lot with a particularly fine view, but the average lot will sell for $4,750.

style of the proposed school.

Shiver also was given permission by the board to advertise for bids for the remodeling project of Rex Reeves.

Dunny Goode, athletic director for the school district, reported to the board that Canyon schools have the highest rate of participation in sports of any schools in the Panhandle.

Goode said it is his philosophy that students who want to participate in a sport should be allowed to participate no matter what ability. He said it is the schools' policy not to cut students from teams for any reason not cleared through the school principal and the athletic director.

Board member Bill Davis asked Goode if the schools have enough coaches to handle the projected increase in sports activities.

Goode said he felt another coach would be needed.

He also said gym space is crowded.

The board also voted to adopt a school calendar for the 1969-70 school year which provides for school to begin Sept. 2.

On the recommendation of Jacobs, the members voted to require students to attend school on two days previously set aside for vacation time.

They voted to require students to attend on Sept. 15, formerly set aside for attendance at the Tri-State Fair in Amarillo, and to require attendance Jan. 16, formerly set aside for teachers' records day.

Jacobs said neither of the days were needed for vacation.

The board added a day, however, to the Easter holiday next year, allowing the holidays to extend from March 26-31.

In other business, the board voted to accept the resignations of Robert Naylor, Karen Wright, Carolyn Newcomb, Gene Andrews, Marcia Eavenson, Mrs. Elvira Fort and Mrs. Sammye Waldrop.

They also voted to rehire 111 teachers at the system's schools.

and were themselves about to seize the crown.

The News trumpeted the event with an eight column scarlet streamer on page one above a play by play story telephoned in by Carroll Wilson from Scurry County Coliseum in Snyder.

The Eagles received Monday a belated welcome home and well done from Bill Davis representing the Canyon Chamber of Commerce. The Chamber Red Carpet Committee had gathered just outside the Eagle Nest at 6 o'clock Sunday evening, but the Eagles had arrived back from Austin earlier than expected and most of them had already left the school.

"The community and the Chamber are behind you 100 percent," Davis told the girls.

Some enthusiastic fan made the rounds Monday and placed signs in the yards where members of the team live.

The sign reads, "Home of A State Champion."

"I thought mother was selling our house," declared Linda Brown of her first reaction to the sign in her yard.

The precious silver basketball went into the school trophy case beside a similar sphere presented to a state champion Boy Eagle team in 1964--heartwarming reminders of two pinnacles on which Canyon has stood to view the remainder of the Lone Star State.

this season.

The Girl Eagles played terrific ball both Friday and Saturday night as they entered a strange town on a strange court to tackle two of the top girl's teams in the state.

Observers in Austin said the Eagles met their toughest opponent in Tuloso Midway. Tuloso sported two 5-11 starters plus another at 5-9 and one at 5-7.

But, the game Saturday against the Wildcats was the clincher as they won 59-42.

The girls had some trouble during the first half with feisty Frieda Schweinle, 5-10, who hit 24 points.

But, the second half told the story as the Eagles put on supreme pressure and forced Angleton into 21 turnovers.

Angleton led only once in the entire game--2-0 at the opening of the game's first minutes.

From then on, the game was never tied and the lead never changed hands. Canyon mounted its lead to as much as seven points in the first half, but bounced back in the second to a lead of 18.

The girls returned Sunday and presented a silver state championship trophy to the student body.

The evening session will include Muleshoe with "Infancy" by Thornton Wilder, Perryton with Eugene O'Neill's "Where The Cross Is Made", and Dumas with "The Pot Boiler" by Alice Gorstenberg.

Hobart McDonald of Canyon High School is coordinator for the district contest Saturday. Judges will be Mrs. June Prentice of the speech-drama department at Midwestern Univerwith in Wichita Falls, Mrs. Margaret E. Moore of West Texas State University speech-drama department, and Jerry McDonough of Amarillo College.

Hazlewood, Wayne and members of the Panhandle Plains legislative delegation for "their splendid work in getting the bill passed."

"The university is on the verge of its greatest growth, a growth that would not have been possible without a separate board," he went on. "A separate board was imperative."

Dr. James P. Cornette, WTSU president, expressed pleasure over the House action.

"All of the thousands of people who are interested in the development of West Texas State University will, I am sure, be gratified to know of the passage of the bill and will wish to express that gratitude to all of the many people responsible," the university president declared.

Buffalo Basketballs Put Away After 2nd Best Season

West Texas State put away its basketballs this week, but for those who like to reminisce, the 1968-69 season was the second best in more than a quarter of a century.

Only once since the 1937-42 era when West Texas' "world's tallest" teams won 130 of 162 games have the Buffaloes had a higher winning percentage than during the recently completed season.

In Dennis Walling's second year as head coach the buffaloes won 18 and lost 8 for a .692 winning percentage. The 1945-46 team, one of three by former Coach Gus Miller to win 19 games in a season, posted a .704 mark.

The quick success experienced by Walling came despite the fact that West Texas played what was regarded as among the toughest schedules in the country.

Gordon L. Wise, an assistant professor of marketing at Wright State University in Ohio, has, as a fulltime hobby, computed the strength of a school's schedule as compared to the caliber of the teams played.

Under his rating system for the 1967-68 season--Walling's first and one that produced a 10-11 record the toughest schedule played by any independent team was that of West Texas. In the ratings of both conference and non-conference teams, it was 25th toughest.

It will be next fall before Wise comes out with his ratings based on the 1968-69 season but the Buffaloes played and defeated three teams -New Mexico State, Colorado State and Weber State--who participated in the NCAA regional tournaments and twice beat the team that won the NAIA national championship, Eastern New Mexico.

The fact that West Texas was upset 82-80 by Ohio University in the first round of the National Invitation Tournament in New York last week came as a disappointment to some fans. It was the first time for the Buffaloes to play in the NIT since the 1942 team was also upset in the opening round.

Walling said, "A NUMBER of other good teams also lost in the first round--Kansas, Wyoming, Tulsa, and Florida."

He added, "I think we played as tough a competition as anyone else in the nation."

The Buffaloes lose four players for next season and two of them--Simmie Hill and Mike Mitchell-accounted for nearly one-half of the current team's school record 2,270 points.

Hill, 6-foot-6 All-American from Midland, Pa., bettered his own single season scoring record with 616 points. Mitchell, 6-2 three-year started from Roswell, N. M., scored 461 to become the second leading scorer in West Texas history with 1,197 points. Hill, who played only two seasons after transfering to West Texas from Cameron Junior College, finished third in career scoring with 1,189.

It was the third straight year that Mitchell led the Buffs in free throw accuracy, making 87.9 per cent of his shots--the fifth highest average of West Texas record. His 51.4 field goal percentage was tops for the second consecutive year. His 37 points in the second victory over Denver was the fifth best single game scoring mark and his 22 rebounds against Illinois State was one of tying a school record.

The Buffaloes also posted several other team records. Their 87.3 points per game scoring average was a new high and the 2,108 points scored against them was the most ever.

The 122-118 double overtime loss to Hardin-Simmons on Feb. 24 at Abilene accounted for three single game records. They were the most points scored by West Texas and an opponent, most points scored on an opponent's floor and the most points scored in a losing effort.

Hill also figured in two other records. His 240 field goals were an all-time high, bettering the 237 he made as a junior, and his 11.3 career rebounding average equalled that set by Milt Fitts in 1957-60.

Gale Rhine, who failed to see action in only one of the 26 games, and Jim Nielsen are the other seniors on the squad. Expected back next season are James McCloud, Dale Blaut, Pratt Lyons, Ron Howle, Gene Murdock, David Cole, Johnnie Burkhalter, Nat Miller, Rick Bacon and Lou Koning.

McCloud was the No. 3 scorer and the No. 2 rebounder in the recent season. He averaged 14.1 points and 9.5 rebounds a game. Blaut was the fourth best scorer with an 11.3 average.

"We're definitely encouraged with our chances for 1970." Walling said. "We feel that George Bailey, our outstanding freshman player from Pampa, should be able to step in to replace Mitchell. Our primary concern will be to find a big man to replace Hill."

The Buffaloes will play another outstanding and tough schedule next season, including home-and-home games with Houston, New Mexico State, Utah State, Weber State, Hardin-Simmons, Texas-Arlington and Southwestern Louisiana.

West Texas State finally got its baseball season under way today with 2-0 and 2-1 victories over Panhandle State of Oklahoma.

Larry Huff won the seven-inning opener with a three hitter and three of the Buffaloes' five hits off Ron Kavanaugh were for extra bases.

The second game, also scheduled for seven innings, was won with one out in the ninth when Pat Williams drove a ball deep down the rightfield line with two runners on base.

David Sharp, who went the distance for West Texas, lost his shutout when the Buffaloes' only error of the doubleheader permitted Jim Meggs to score from third base in the sixth inning.

Homemaker Shares Recipes

EMBROIDERY and handwork is a favorite pasttime for Mrs. J. W. Billingsley who shares recipes this week with our readers including Frosted Carmel Squares, Mexican Cornbread and Chicken Dumplings.

BY LORENA MILLER

Mrs. J. W. Billingsley shares a collection of three favorite recipes with our readers this week including Frosted Carmel Squares, Mexican Cornbread and Chicken Dumplings.

Mrs. Billingsley, the former Nora Lillard, was raised at Clarendon. She has two sisters, Jewel Bolton of Canyon and Maude Nichols of Denton, and a brother, Newt Lillard, of Tennessee. Her parents and another brother are deceased.

She graduated from high school in the Clarendon area and in 1918 married the late J. W. Billingsley at Clarendon. He was born in Johnson County, but had lived in Clarendon for a number of years. He has one sister, Maude Funderburk, and two brothers, Sam and Earl Billingsley, still living.

The Billingsleys lived in Clarendon for about ten years after they were married and then moved to Farwell where they farmed for about 30 years. They moved to Canyon seven years ago and he died 4 years ago.

Their four daughters are all graduates of Farwell High School including Mrs. Margaret (Crawford) Ruthart of Canyon, Mrs. Jo Veta Woodson and Mrs. Zell Cain, both of Amarillo and Mrs. Lucille Berry of Washington State.

Mrs. Billingsley also has eleven grandchildren and three great-grandchildren to fill her spare hours.

About hobbies, she said that she likes to piece quilts, crochet afgans, and do yard-work in the spring and summer. She recalls with memories her experiences of raising a garden while living on the farm at Farwell and raised a garden for three summers in the backyard after moving to Canyon.

A member of the First Baptist Church, Mrs. Billingsley is active in the Ropeholders Bible Class and the Samaritan Group, which conducts a monthly project in service to residents, children's homes, the church, and others.

Last summer, Mrs. Billingsley spent three months on a vacation in Germany while her daughter, Zell, and husband were stationed there with the service. She went sightseeing to a number of countries and returned to Canyon briefly before taking a trip to Washington to visit for a month with her daughter, Lucille.

The recipes which Mrs. Billingsley shares are:

2 egg whites, beaten stiff
1 tsp. vanilla
1 cup coconut or nuts

Cream shortening, sugar and add beaten egg yolks, dry ingredients and milk. Spread into oblong cake pan.

Beat egg whites and add brown sugar, vanilla and coconut. Spread on cake batter and bake in slow (300-350 degree) oven until brown and set. Do not overcook. Cut in squares to serve.

MEXICAN CORNBREAD

1 can yellow cream-style corn
1 cup yellow cornmeal
1 egg
1/2 tsp. soda
1/3 cup melted shortening
1 can chili peppers
1 cup or more of cheese, grated
1 cup sweet milk

Beat egg well and add milk, soda and shortening. Mix well and add cornmeal, peppers and corn. Pour half the batter in pan. Add half the grated cheese and pour on remainder of batter. Top with cheese. Bake slowly, about 40 minutes at 350 degrees.
